Every year for Second Quarter Honor Roll Field Trip, we go skiing or snowboarding at Sundown. This year we went on January 24th. It is one of my favorite field trips because I don't get to go snowboarding very often. This was my seventh time snowboarding; I'm still not very good, but with the help of a few friends I improved. We got to Sundown at 10:00a.m. Around 12:00 we went inside and ate lunch. After lunch I really started improving, but not without a few falls. I face planted the snow several times and got snow in my helmet. I decided that the fun I was having was worth getting a few bruises. At the beginning of the day it would take me about 5 minutes to go down a hill, but by the end of the day I could make it down in 1 or 2 minutes. By 5:00p.m. I was exhausted and cold so I went inside the lodge and got ready to go back to school. On the way home, we stopped at McDonalds/Subway for supper. By the time we got back to school, about 8:30p.m., I was ready to go home and go to bed. All in all it was a great day.

Board Member Report

Last weekend I had the opportunity to help with the Pathway Carnival. I think I had the best job, helping with the dunk tank, encouraging kids to hit the target, knocking their principal, coach, or friend into the water. While it certainly was a fun environment to be a part of, what really made it fun was the people; the kids, parents, teens, volunteers and so on. All laughing, talking, and enjoying each other's company. To me it was a tiny slice of heaven on earth. We Christians, have a lot to be happy about and should be able to have fun and happiness wherever we are. In a world that is increasingly more and more unhappy, may we shine true happiness to those around us. Let us not wait until next year's Carnival to create an enjoyable environment, but do it around us each day. Excellent job done by those who planned it.

Editor's Corner

As some of you know, I had an accident on December 13, 2016. I fractured my hip. We had just started basketball in November and now I was unable to play. Though this whole experience has been very tough for my basketball team and I, God has never taught me more in such a short period of time. Learning to trust God's will and timing for this situation has been the hardest part of it all. I will briefly share one thing I have learned through this experience.

Sometimes we as humans wonder, "Why did this have to happen to me?" or "Why did God have to do this to me and at this particular time?" If only we had God's perspective to see His whole plan, we may rethink our complaining. The problem is we don't always have God's perspective on life. God looks into the future and sees how this hard time will equip us spiritually and emotionally for the future, but we can only see the present and past. That is why we must trust God. Trust that He knows best and will work out everything for good if we just trust Him in every situation. I may not know what His purpose for this hard time is, but I know He is good and His timing is perfect. I may never understand His reason for this, but that is ok. I will just keep trusting Him because He is good!
